

BENKO PRODUCTS 05-08-2006

TEMPERATURE CONTROLLER REPLACEMENT

USE THE CHART BELOW TO MOVE WIRES

LFE-1410 wire numbers	FUTURE DESIGNS Pin Numbers
# 10 - LINE	# 6 - LINE
White - NEUTRAL	# 7 - NEUTRAL
# 12 - RELAY COMMON	# 8 - RELAY COMMON
# 13 - RELAY N/O	# 9 - RELAY N/O
T/C RED WIRE (-)	# 4 - T/C RED WIRE (-)
T/C WHITE (+)	# 5 - T/C WHITE (+)

The numbers in the chart on the left are wire numbers the numbers on the right are terminal numbers not wire numbers

This chart works when replacing a LFE-1410
With a FUTURE DESIGNS FDC-9090

These instructions will work with most of the older Benko Products control systems with standard options. Without reviewing an exact copy of the original schematic no guarantee can be made that following these instructions will work.
